General Department Information

Program Admission Requirements for Internal Transfer Admission:

Admission to this academic program is limited and is based on space availability and the competitiveness of the applicant pool. Factors that may be considered include, but are not limited to: passage of the Test of Academic Proficiency (TAP) or ACT of 22 or higher (plus writing), courses completed, cumulative GPA, hours completed, personal interview or written statement, and samples of work completed. For additional information on minimum requirements for admission and the application and selection process, visit My.IllinoisState.edu or contact the undergraduate advisors for the intended major.

Changes in major or sequence will be approved only if the student meets established program admission requirements and if there are openings in the sequence the student desires to enter. Students seeking to change their major to Special Education should follow the procedures described in this *Undergraduate Catalog*.

New Transfer Admission Requirements:

Department advisors or IllinoisState.edu/Majors can provide information regarding additional requirements for transfer into a special education major. In order to manage course offerings and accommodate student demand for the major, it may be necessary to extend the plan of study for transfer students by one semester.

Standards for Progress in the Major

A minimum GPA of 2.50 is required both overall and in major coursework for retention in all Special Education programs. Candidates must meet requirements for Admission to Professional Studies and Admission to Student Teaching to advance to experiences with these prerequisites.

Professional Requirements Applicable to All Special Education Programs:

In addition to meeting University requirements for graduation and Admission to Professional Studies requirements, all students in Special Education must successfully

complete:

- 1) 33-hour core of courses, which includes the knowledge standards central to the profession of special education. These courses include: EAF 228, or 231 or 235; *MAT 130; *PSY 110; SED 101, 205, 206, 360, 368, 388; and TCH 208, 210. (All of these courses must be completed with a grade of C or better.)
- 2) Sequence-specified course and experience requirements (see below) with minimum cumulative and major grade point averages of 2.50 for retention in program and continuation of major requirements.
- 3) Pre-student teaching experiences designed to meet professional performance standards. These experiences include successful completion of a minimum number of semester hours through enrollment in appropriate field experience coursework (see sequence-specific requirements). Additional teaching or related experiences may be included as a part of core or specific sequence requirements or in remedial experiences. Performance evaluations in each of these experiences must recommend that the student advance to the next level of experience prior to doing so. Repeat of field experience coursework requires consent of the Department Chair. *Students are responsible for housing arrangements and transportation to clinical sites.*
- 4) A full semester of Student Teaching (STT 399) for which teacher candidates are awarded 12 semester hours of credit. In order to be recommended for initial licensure, candidates must demonstrate during this capstone experience that they have obtained competence in the knowledge, performance, and disposition areas designated by the profession of special education and this department. *Students are responsible for housing arrangements and transportation to student teaching sites.*
- 5) Passage of the Test of Academic Proficiency (TAP), or ACT (plus writing) of 22 or higher.
