Honors in Economics
Candidates for honors must fulfill the general requirements for participation in the University Honors Program and must be Economics majors with a GPA of 3.30 overall and 3.75 or higher in Economics courses. Students will be expected to complete six hours of coursework designated as honors coursework within the Department of Economics. These could include ECO 101 and 102 honors, or 2 in-course honors at the 200- or 300-level. In-course honors requires individual negotiation with the faculty member teaching the course. In addition, the achievement of honors requires the writing of a substantial original paper. The student will enroll in Honors Independent Study and will receive help from an assigned faculty member. At the end of the semester the student will make an oral presentation of the paper. One copy of the original paper will be kept in the Department office and be available for inspection. Honors credit will show on the official transcript and will be stated on the diploma. Further details about the University Honors program are available at Honors.IllinoisState.edu.
