

**ACADEMIC PROGRAMS AND CENTERS AT ILLINOIS STATE UNIVERSITY
AUTHORIZED BY THE ILLINOIS BOARD OF HIGHER EDUCATION**

As of July 1, 2022

PROGRAMS AND CENTERS

Bachelor's degree programs: 78
Minors: 76
Master's degree programs: 46
Certificate/specialist programs: 41
Doctor's degree programs: 10
Research and service centers: 10

PLANS OF STUDY

In bachelor's degree programs: 180
In minor programs: 77
In master's degree programs: 105
In certificate/specialist programs: 41
In doctor's degree programs: 20

A plan of study is defined as either a sequence or as a required plan of study associated with a major but not designated as a sequence. Plans of study exclude options, concentrations, specializations, and any other plans that are suggested or recommended but not required and, therefore, not transcribed by Illinois State University.

The count of certificate/specialist programs includes 40 graduate certificate programs and one specialist program (Specialist in School Psychology). IBHE classifies the latter program as a post-baccalaureate certificate rather than as a master's program or doctoral professional practice program.

For more information please consult the table notes at the end of this document.

Issued July 5, 2022
Office of the Vice President for Academic Affairs and Provost
Illinois State University

Programs and Centers at Illinois State University
Authorized by the Illinois Board of Higher Education as of July 1, 2022

TABLE NOTES

This document lists academic programs and research and service centers at Illinois State University recognized by the Illinois Board of Higher Education (IBHE) and effective as of July 1, 2022. This document does not reflect program changes approved prior to July 1, 2022, but not effective until after July 1, 2022. This document does not reflect program changes approved after July 1, 2022.

Academic programs and research and service centers listed in this document are included on the official inventory of Illinois State University programs and centers maintained by IBHE. Program and center names in this document match names in the IBHE inventory and are the names that should be used by units of the University and in official documents of the institution.

A Classification of Instructional Program code, or CIP code, is associated with each program and center in this document. The code is intended to reflect the field of study that is the focus of the program. For all programs except minors, CIP codes have been assigned by IBHE. CIP codes for minors have been assigned by the Office of the Vice President for Academic Affairs and Provost at Illinois State. For more information regarding CIP codes, see *IPEDS Classification of Instructional Programs CIP 2020* (see <http://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

CIP codes associated with research and service centers in this document do not appear in the CIP taxonomy. CIP codes for centers begin with “90,” the prefix assigned by IBHE to all centers. The four decimal numbers following “90” are assigned by IBHE from the CIP taxonomy and reflect the discipline most closely associated with the center. Only research and service centers authorized and recognized by IBHE are included in the list of centers in this document. There are numerous other entities at Illinois State with “center,” “institute,” or a similar term in their name, however those other entities are not officially recognized by IBHE.

In addition to the CIP codes cited in this document, CIP code 24.0199 is used by Illinois State in records of undergraduate and graduate students who have not yet been accepted into one of the degree programs listed in this document.

Although IBHE has authorized Illinois State to offer an Integrated B.S./M.P.A. in Accountancy program, IBHE does not include that program in its official inventory of degree programs at Illinois State. Instead, the IBHE inventory includes a Bachelor of Science (B.S.) in Accountancy program and a Master of Professional Accountancy (M.P.A.) program.

The Specialist in School Psychology (S.S.P.) program is often associated with master’s level programs. However, IBHE has categorized the S.S.P. as a post-master’s certificate program because its credit hour requirements (currently 62) exceed standard credit hour requirements for master’s degree programs.

While degree programs in the Department of Accounting use the term “accountancy,” the minor in the department uses the term “accounting.” At the time the degree names were changed from “accounting” to “accountancy,” the name of the minor was not changed accordingly.

The Center for Insurance and Risk Management at Illinois State is more commonly known as the “Katie School.” IBHE does not recognize the latter name.

For more information about this document or about any program listed in it, please contact the Office of the Vice President for Academic Affairs and Provost, (309) 438-7018.
