**Board of Trustees  
Illinois State University  
Authorization to Contract for Milner Library E-Journal and Database Subscriptions**

EBSCO Industries is the primary periodicals and electronic databases vendor for Milner Library. EBSCO provides volume discounts to the desired database and subscription services. Illinois State University Board of Trustees previously authorized Milner Library to spend up to \$3.5 million for e-journal and database subscriptions annually in prior fiscal years. To take advantage of discounted pricing offered for multi-year renewal agreements, we are requesting the University Board of Trustees to consider a multi-year expenditure authorization with EBSCO Industries.

The administration of Milner Library seeks Board of Trustees support for the e-journal and database subscriptions renewal spending with EBSCO Industries up to \$11,025,000 for FY2027, FY2028, and FY2026 fiscal years, with an option to renew for an additional three fiscal years, not to exceed \$11,576,250 in the renewal period. These estimates allow for a 5% inflationary increase in costs each renewal period. This will assure the availability of the content necessary to support quality programs and research at Illinois State University.
