

BOARD OF TRUSTEES

Illinois State University

Resolution Number 2026.07/38

Authorization to Name Keysight Circuits and Electronics Lab and Keysight Digital and Microcontrollers Lab

Resolution

Whereas, the Board of Trustees, as authorized by the Board of Trustees Governing Document, Section C, Policies, Subsection IV-C, Naming of Facilities, shall approve the naming of all facilities at the University, and

Whereas, the Circuits and Electronics Lab, Room 247 and the Digital and Microcontrollers Lab, Room 239 are located inside the College of Engineering at 1709 General Electric Road, and

Whereas, Keysight has committed financial resources to Illinois State University, and

Whereas, the University Naming Committee has recommended, and President Tarhule has endorsed the recommendation as described herein.

Therefore, be it resolved that the Board of Trustees approves the naming of the Circuits and Electronics Lab, Room 247 and the Digital and Microcontrollers Lab, Room 239 in the College of Engineering at 1709 General Electric Road as the “Keysight Circuits and Electronics Lab” and the “Keysight Digital and Microcontrollers Lab” for a fixed term of seven years in recognition of financial support to Illinois State University.

Secretary / Chairperson

Board of Trustees
Illinois State University
Authorization to Name Keysight Circuits and Electronics Lab and Keysight Digital and Microcontrollers Lab

The College of Engineering respectfully requests naming the Circuits and Electronics Lab, Room 247 and the Digital and Microcontrollers Lab, Room 239 in the College of Engineering at 1709 General Electric Road. The namings reflect and recognize the generous gift of in-kind equipment made by Keysight.

Keysight specializes in electronic design test and measurement solutions, providing hardware and software tools for industries such as telecommunications, aerospace, automotive, and semi-conductor manufacturing. Keysight has been a strong partner for the College of Engineering and provided a summer camp experience at ISU that immersed students in hands-on radio frequency concepts and teamwork.

Keysight's financial commitment highlights their dedication to higher education and new programs that positively impact engineering students. As a result, we propose naming the lab spaces as the Keysight Circuits and Electronics Lab and the Keysight Digital and Microcontrollers Lab for a fixed term of seven years.
