**Board of Trustees
Illinois State University
Authorization to Name Lenovo Computer Labs**

The College of Engineering respectfully requests naming the Computer Labs, Room 123 and Room 124 in the College of Engineering at 1709 General Electric Road. The namings reflect and recognize the generous gift of in-kind equipment made by Lenovo.

Lenovo provides technology that focuses on building a brighter, more sustainable future for customers, communities, and the planet. Lenovo serves as a licensed vendor for TechZone, and they have worked alongside College of Engineering leadership to build unique opportunities tailored to the curriculum and provide customized, pre-configured machines that meet Illinois State's specific standards for technology.

Lenovo's financial commitment demonstrates their willingness to find new ways to continue partnering with Illinois State and elevate the College of Engineering program for students. As a result, we propose naming the lab spaces as the Lenovo Computer Labs for a fixed term of five years.
